

To install DSQSS into your Linux machine

ISSP, UTokyo Yuichi Motoyama
2019-06-06 @ ISSP

Install DSQSS

```
# download DSQSS from GitHub
git clone https://github.com/issp-center-dev/dsqss

cd dsqss

# change the version
git checkout v2.0.1

# make a working directory
mkdir build

cd build

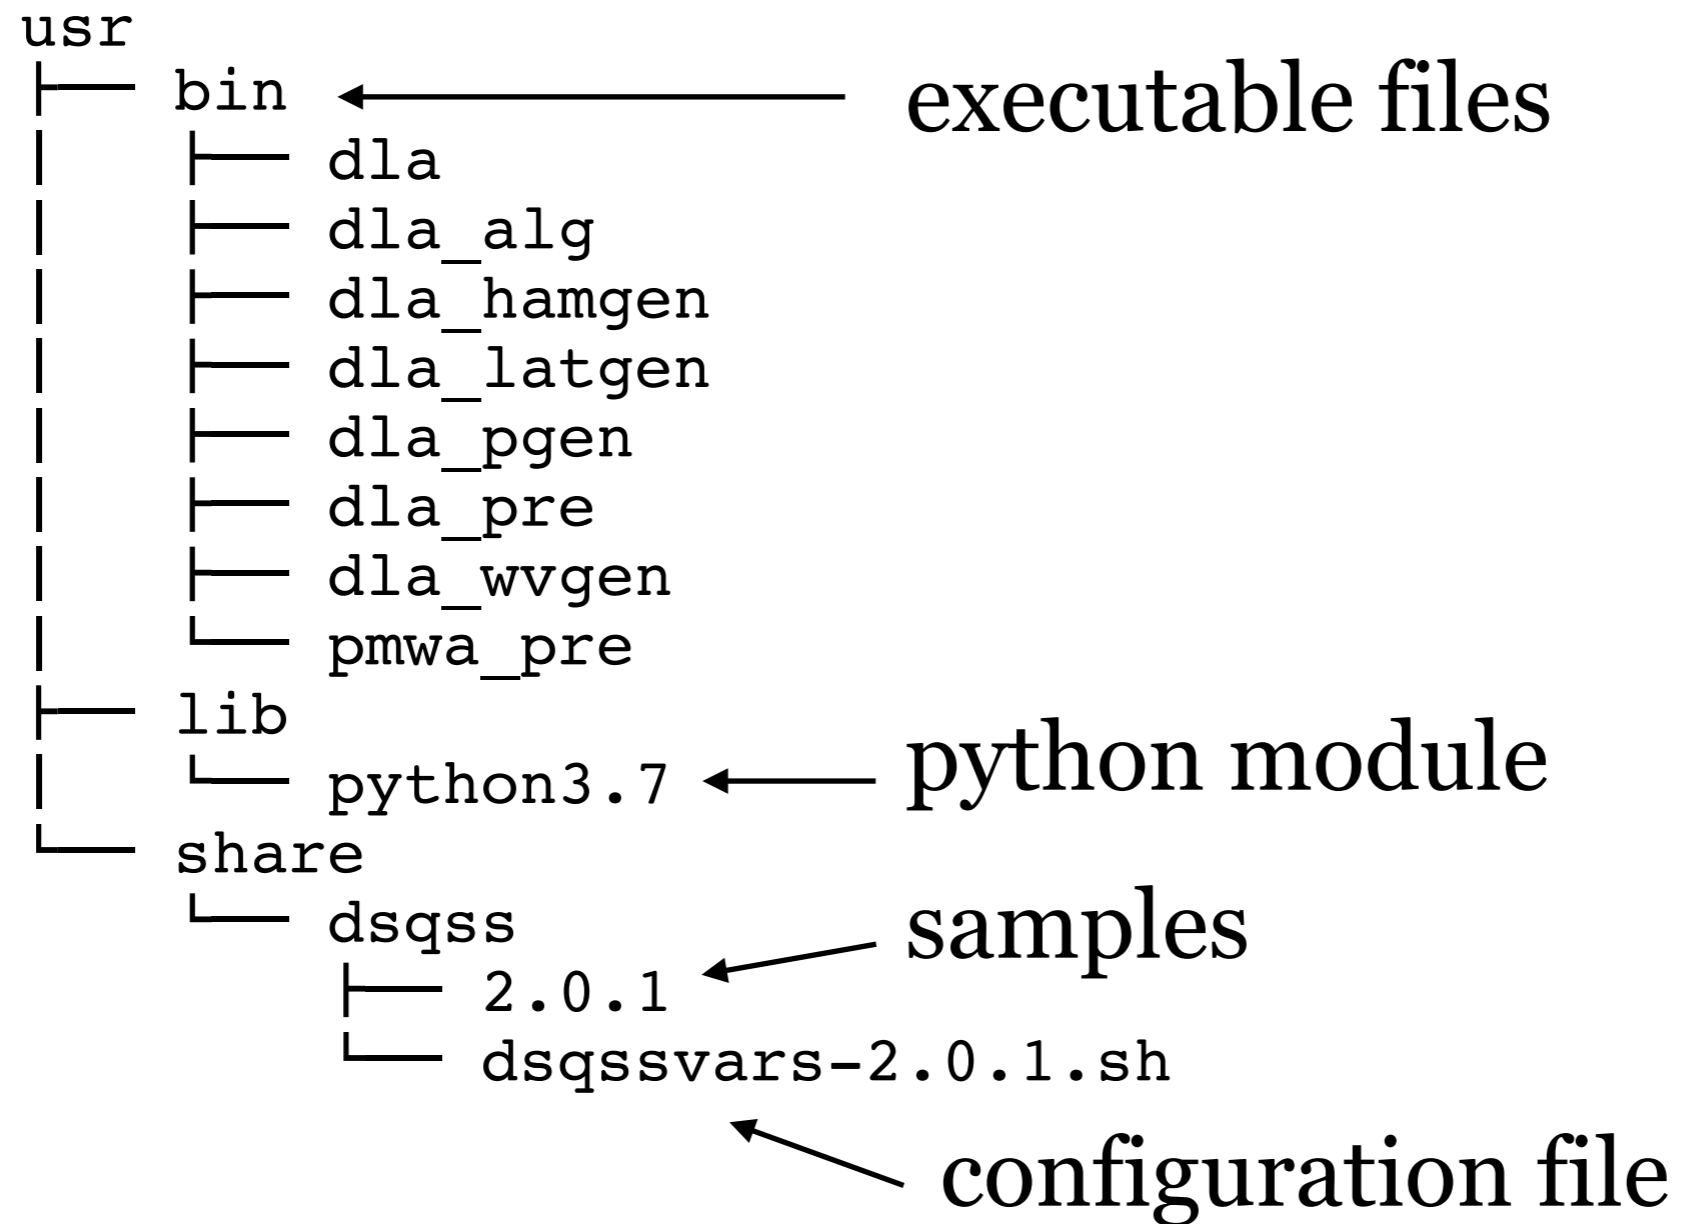

# generate Makefile
# -DCMAKE_INSTALL_PREFIX option sets where DSQSS will be installed
# in this case, dsqss/usr
cmake -DCMAKE_INSTALL_PREFIX=../usr ../

make

# to test
ctest

make install
```

Install DSQSS

load (source) the configuration file as

```
source dsqssvars-2.0.1.sh
```

before using DSQSS!
